

Following are the set of instructions:

- 1) Library File Name: bintree.py
- 2) TSTL filename: bintree\_for\_tstl.tstl

Steps:

- 1) Download the library from the following URL:  
<https://bitbucket.org/mozman/bintrees/downloads>
- 2) Library to download: bintrees-2.0.2.zip
- 3) Install the library by using the following command:  
python setup.py install  
or  
pip install bintrees
- 4) Copy the TSTL file and execute the following command:  
tstl bintree\_for\_tstl.tstl --nocover
- 5) python2.7 randomtester.py --nocover

Methods tested:

- 1) As part of the initial version of testing I have tested the insertion and deletion for the binary trees.
