

CS562w16 Part 2

Qi Wang

Instruction

This is the initial version of the testing system in TSTL.

1. When running the tssl files, just download all files in the part-2 directory. Put all file in the same folder.
2. I have two tssl files:
 doublelinkedlist.tssl
 stack.tssl
3. When running the tssl files, use command:
 tssl doublelinkedlist.tssl
 python randomtester.py --nocover
 tssl stack.tssl
 python randomtester.py --nocover
